

What we will buy

- We are investing in renewable energy technologies like solar panels
- We will prioritise using only sustainable goods and services
- We are striving to only work with other businesses that are aligned with our net zero policies and commitments

Who we want to be

- Our staff Net Zero Heroes empower others within our Trust to think greener
- Staff are encouraged to consider how they can contribute towards a more sustainable Trust and share their ideas
- Training will be available to our staff on sustainability and its importance for our health and wellbeing

Our Green plan

Where we will work

- We are working towards making our buildings more energy efficient
- We will reduce how much energy and water we use
- We will enhance the green spaces around our sites for everyone to enjoy
- We will plant more trees at our sites for shade and flood prevention, and install natural ways to keep our buildings cool
- We will always plan with the environment in mind

How we want to travel

- We're installing electric vehicle charge points
- We want to encourage staff to use more sustainable forms of transport
- More vehicles used by the Trust will be electric, and better for the environment
